

OUR PRODUCTS

Manufactured in South Africa with 100% local content Constant temperature performance.

HOUP® -H0307 Thermal Insulation Vaccine Carrier Box comes with a 3-year warranty against manufacturing defects.
Specification for HOUP® -H0307 Vaccine Carrier Box with internationally environmentally acclaimed benign insulating agent ecomate®

Vaccine storage volume (L):	2.5-4.5 litre
Internal Storage Volume (L)-without ice pack	7.1 litre
Weight fully loaded (Kg): with Ice packs	6.7 kg
Weight empty (Kg):without ice packs	3.5 kg
External dimensions:(LxW H mm)	270x270x279 mm
Internal Storage dimensions:(LxWxH mm)-without ice pack	190x190x210 mm
Vaccine Storage dimensions:(LxWxH mm)	122x122x190 mm
Insulation thickness:	40 mm
Ice pack type -made according (WHO/PQS/E005/IP01.2)	0.6 litre
Number of Ice pack	4-6 Ice packs
Cold life at +43°C:	52 hours

HOUP ® -H0307 Thermal Insulation Vaccine Carrier Box Specification

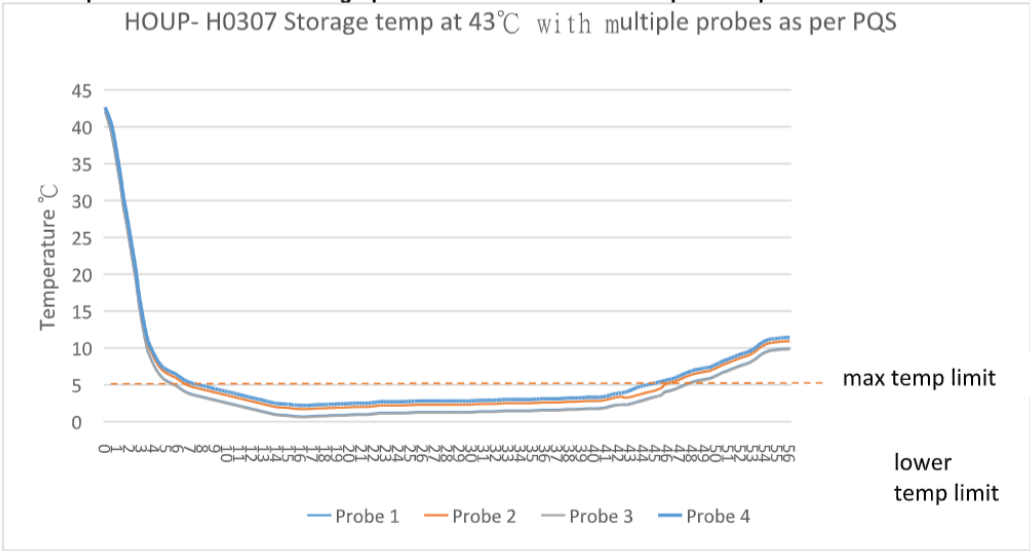

HOUP™ -H0307 Thermal Insulation Vaccine Carrier Box manufactured locally as per WHO specification (WHO/PQS/E004/CB01.2).

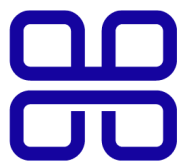

The HOUP™ Thermal Insulation Vaccine Cooler Box is a 7 liter gross (without ice packs) capacity carrier box manufactured locally and designed according to WHO standards. The HOUP™ has been designed and manufactured for the harsh demanding African environment.

HOUP™ -H0307 provides proper vaccine storage and handling necessary to prevent common vaccine unacceptable handling practices that effect can affect the efficacy and effectiveness of the vaccine itself.
