Product performance charts- This graphic indicates the excellent temperature performance at 43°C
HOUP- H1021 Storage temp at 43°C with multiple probes as per PQS

SPECIFICATIONS

Specification for HOUP® - Water Ice packs

Volume of water per pack	0.6 litre
External dimensions	190mm x 120mm x 34mm
Raw Material	Low density Polyethylene
Weight filled with water as per WHO specification	Max 720g
Standard Specification	0.6-L compliant with WHO PQS E005

Unique Feature

- Manufactured in South Africa with 100% local content
- Constant temperature performance.
- Recessed handle for easy packing and lifting.
- Lockable latch.
- Stable stacking.
- Ice packs included.
- Self supporting lid.
